

P3

In P3 we are learning the parts of the body. Today we did a puzzle of our faces and also we created new ones. Ah, and look this is our friend mouse, our pet!

P4

In P4 Richard explained the traditional English story “The very hungry caterpillar” by Eric Carle. After that, we made in pairs or small groups our caterpillar with plasticine.

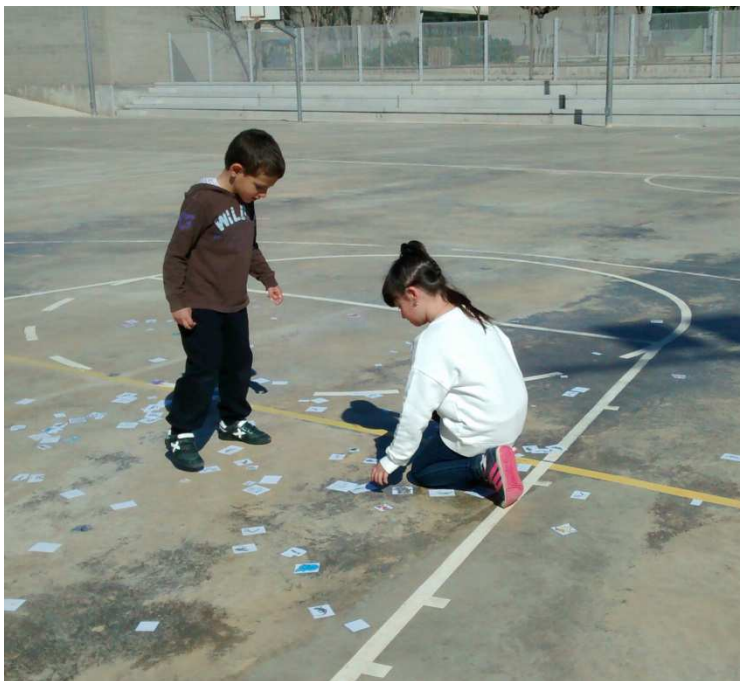

P5

In p5 we make three groups of children, one for each teacher and one autonomous. In one group they played different games related with the fruit vocabulary like the story dominoes. In the second group the kids can play with the tablet learning the vocabulary of this unit and finally, in the last group we have done a role-play of a supermarket: we need a customer, a seller, a basket, fruits and a cash machine... any volunteers?

1r

In year 1 we are learning science in English! Such an adventure! We are finishing this topic playing an activity in the playground. In two teams they had to find the mysterious animal following Richard's description. For example: a carnivorous animal that lives in the jungle and has got four legs. Can you guess what it is?

Tallers CI

In the Key stage 1 workshop we are doing theatre in English! During this term we are representing the story of the 3 little pigs. We have everything ready: the houses, the pigs and the big bad wolf!

2n

In year 2 we are almost finishing our project with the polish school that belongs to the Etwinning endeavor. At the moment we are recording the videos that we'll exchange with the other school. We have sent short videos introducing ourselves and also, we have received videos and photos of our new friends. We are really excited!
